

2'x2' INSTANTTABLE

HOW TO SET UP 2x2

1. Grasp top corner caps and expand frame. Place one hand on top of the corner cap and raise the corner toggle slider to lock into place. Lock opposite corner toggle. **Be careful not to pinch fingers.**

2. Set table height. Tilt table and press height adjustment toggle to set desired height. Leg will lock into one of three fixed height settings.

3. Open folding panels. Locate indexing hole and align with pins located on the center and corner top caps. Place folding panels on frame.

HOW TO TAKE DOWN 2x2

1. Remove folding panels and lower legs.

2. Unlock sliders by pressing corner toggle buttons simultaneously and pull down slightly. From one corner tilt table and pull toggle down away from top corner cap.

3. Grasp corner top caps and pull together to close.

Note: When storing folding panels, fold short hinges first followed by longer hinges.

2'x4' INSTANTTABLE

HOW TO SET UP 2x4

1. Grasp corner top caps and pull apart slightly. From middle leg position, grasp adjacent corners and expand frame. Lift on middle toggle slider and raise to lock into place. **Be careful not to pinch fingers.**

2. Set table height. Tilt table and press height adjustment toggle to set desired height. Leg will lock into one of three fixed height settings.

3. Open folding panels. Locate indexing hole and align with pins located on the center and corner top caps. Place top on frame and repeat on second side.

HOW TO TAKE DOWN 2x4

1. Remove folding panels and lower legs.

Note: Lower center legs first (stabilize table while lowering).

2. Unlock sliders by pressing corner toggle buttons simultaneously and pull down slightly. Grasp middle top cap and middle toggle slider and pull apart approximately 1/2 its size.

TAKE DOWN 2x4 CONT.

3. Grasp corner top caps and pull together to close.

Note: When storing folding panels, fold short hinges first followed by longer hinges.
